The map displays a topographic view of a rural area with various buildings, fields, and water features. A yellow outline delineates the 'Secteur Bourg' (Bourg Sector). A red line represents the 'Réseau gravitaire projeté' (Projected Gravity Sewerage Network), connecting several manholes labeled RV1 through RV15. The network starts at RV1 in the upper right, proceeds through RV2, RV3, RV4, RV5, RV6, RV7, RV8, RV9, RV10, and RV11, ending at RV12. A large red circle with the word 'STEP' inside is located near the bottom left, with a cyan line pointing to it. The map also shows a blue line representing a water body, likely the Gaube, and another blue line labeled 'Louspou'. The background includes contour lines and building footprints.
